

QUEEN

ROYAL JELLY

Elixir For Energy & Youth

■ GIFT FROM NATURE

Royal jelly is one of the most difficult of all foods to harvest and command one of the highest prices because of its scarcity, high demand and the recognition of its nutritive quality.

■ NATURE'S COMPLETE FOOD SUPPLEMENT

Queen Royal Jelly is full of nutrients for vitality and great health. It is a very rich source of protein, vitamin B, lipids, enzymes, minerals, hormones and important fatty acids like folic acid and pantothenic acid, which is reputed to boost the strength of the adrenal glands and to help reduce stress levels .

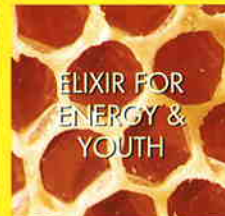

Queen Royal Jelly also has natural anti-bacterial and anti-biotic components to enhance the immune system. Most importantly, it contains 10

HDA (Hydroxy Decenoic Acid); a fatty acid known for its anti-microbial and anti-cancerous properties.

■ QUEEN ROYAL JELLY

Queen Royal Jelly is produced in Dezhou, renown as the "Gigantic Natural Bee Farm" in China; the world largest producer of royal jelly.

Dezhou unique endowment of good weather and high quality natural water and unpolluted environment guarantees the quality of local flowers and ensures the abundance of superior nectar.

QUEEN

ROYAL JELLY

Elixir For Energy & Youth

QUEEN ROYAL JELLY

The quality of royal jelly lies in the selection of flowers that the bees feed on and the advanced manufacturing technology. Industrial experts in bee products widely recognised that Dezhou benefits from its richest and best natural resources of Peach Blossom, Chinese Date trees and Pagoda flowers.

BENEFITS OF QUEEN ROYAL JELLY

- Energises the body, making one feel healthier and revitalised
- Enhances the immune system
- Slows down the signs of ageing
- Enhances beauty to give a youthful look
- Improves health with its complete nutrition
- Upgrades the endocrine system

ELIXIR FOR ENERGY & YOUTH

Queen Royal Jelly is the result of the scrupulous work of bees feeding on Pagoda flowers, Peach flowers and Date flowers yielding a high nutrition content that is second to none.
